Experience

Web Development Intern at HerWILL

Plan Wix Site Structure:
- Discuss and determine the main pages, subpages, and navigation flow.

Content Migration:
- Ensure proper formatting and styling to maintain consistency.

Design and Layout:
- Customize the design and layout of the Data Science Module on Wix.
- Choose appropriate templates, fonts, colors, and styles to match the organization's branding.
- Ensure responsiveness for various devices (desktop, tablet, mobile).

Integration of Features:
- Integrate interactive features or functionalities (e.g., forms, quizzes, interactive charts).
- Explore Wix's built-in tools or third-party apps/plugins for necessary features.

Testing and Feedback:
- Conduct internal testing to identify any bugs, issues, or inconsistencies.
- Gather feedback from team members and stakeholders for improvements.

Optimization for SEO:
- Optimize the Data Science Module for search engines.
- Utilize Wix's SEO tools to optimize meta titles, descriptions, and keywords.
- Ensure proper URL structures and site mapping for better search engine visibility.
